

Colorado Endowment for the Humanities

presents the

AMERICAN SPIRIT SERIES

featuring

A Jefferson/Hamilton Debate

Two men with sharp minds and accomplished pens bring history alive.

The American Revolution brought them together and forced them apart. Each in his own way was vital to the founding of our nation.

Each firmly laid his imprint on our society, an imprint clearly visible 200 years later. During their lives, they

quarreled constantly. The issue they argued

– federalism, economics,
the role of government –
continue to be contentious
to this day.
