John Adams, the second president of the United States, was devoted to a life of politics and establishing the new republic.

Abigail Adams was known as a talented letter writer and, even more importantly, a confidante of her husband.

The matriarch of a founding American dynasty, Abigail grew into the nation's first truly emancipated female. The lives of this history-making couple – as revealed in their letters, diaries, and books – will be brought to life in an intimate look at the political climate of the early republic, a crucial time in American history.
